Profile Summary

Full Stack Developer and AI enthusiast with a strong foundation in Python, SQL, and GenAI. Proven track record of leading hackathon teams and building live, user-centric web applications using Flask and Tailwind CSS with leadership under high pressure environment, ranking in top 0.2% of 20,000+ participants in national hackathon.

Experience

Team-Lead | Paranox2.O Hackathon (Shortlisted)

- Led a team of 5 developers to conceptualize and build a prototype within a 24-hour timeframe.
- Managed project workflow and delegated tasks, resulting in top 40 out of 20,000 overall participants.

Mentor & Coordinator | Arambh Hackathon

- Coordinated event logistic for 40+ teams and 200+ participants, ensuring smooth execution of the coding challenges.
- Mentored junior students in debugging python code and optimizing algorithms.

Projects

CivicSetu | Python-Flask, HTML, Bootstrap, JavaScript | Live application Sept 2024

- Engineered a geolocation-based issue reporting platform using Python-Flask, and Leaflet Map API reducing the time required for user to report infrastructure faults by 80%.

Edu-Portal | Python-Flask, HTML, Tailwind CSS, JavaScript | Live application Aug 2025

- Architected a responsive academic portal with Python-Flask, Tailwind CSS and JavaScript, reducing administrative processing time by 60% through enabling real-time data synchronization between students and faculty.

MewDrive | Python-Flask, Tailwind CSS, JavaScript | Live application Jan 2026

- Developed a secure file management system implementing user authentication and organized database schemas in SQL, enabling efficient file storage and retrieval.

HealthCare Portal | Python-Flask, HTML, Tailwind CSS, JavaScript | Live application Jan 2026

- Built a critical care portal using Python-Flask that centralizes emergency details and medical history, designed to reduce information retrieval time during patient intake by 70%.

**more projects are available in my GitHub repository.*

Technical Skills

Backend: Python (Flask, Fast-API), SQL (PostgreSQL, MySQL), C
Frontend: JavaScript, Anime.js, Bootstrap, Tailwind CSS
AI & Data: Transformers, NumPy, Pandas, Matplotlib
Tools: Git/GitHub, Selenium, Playwright, Excel

Education

DDU Gorakhpur University September 2024 - Present
Bachelor of Technology (Information Technology) Gorakhpur, Uttar Pradesh, India
P.G. Senior Secondary School 2023 - 2024
Intermediate (CBSE) Captainganj, Kushinagar, India
P.G. Senior Secondary School 2021 - 2022
High School (CBSE) Captainganj, Kushinagar, India

Extracurricular / Certification

- Certificate of Python Programing Language Basic, SQL,
- Workshop Certificates for Air Taxi & Drone Technology by ISL and ISRO, Product Management by IIT Roorkee
- Paranox2.O Hackathon
- Certificate of Experience as Coordinator & Mentor by TechSphere
- Case competitions in Kshitij and Nation with NAMO
